Prime Minister

MESSAGE

I am happy to know that the 6th International Principals' Educational Conference is being organized at Nagpur from 27th - 29th November, 2017.

Education sector builds the pathway to the future of a Nation and it is imperative that a strong, agile and responsive educational system should be in place in India. A dynamic education system with stress on quality is possible only if the educationalists and institutional leaders are receptive to new ideas and best practices across the world.

I hope that the 6th International Conference at Nagpur will be an opportunity for the Institutional heads to learn from each other and build a momentum for ensuring quality education. Best wishes for the success of the Conference.

(Narendra Modi)
